

Contract for Clients Engaging Northstar TeleConsulting

www.northstarconsultingassociates.com

This is to confirm that I, _____, having already spoken directly with _____, agree to engage her/him for _____
(print name of associate)

TeleConsulting services, defined as **psychoeducational consultation/s by videophone**. I understand that these services must be pre-paid in full. I agree to pay in advance for (please check)

- One videophone session @ \$150 (30 minutes) _____
\$200 (45 min.) _____
\$300 (75 min.) _____

or

- Retainer of _____ for _____ sessions of _____ minutes each, over (approx. period of time) _____

I have read the description of the Northstar TeleConsulting service which makes clear that the conversation between myself and the Northstar associate will be entirely of a psychoeducational nature and not psychotherapy. This allows inter-state consultations.

I do understand that if it is decided that I will need a clinical evaluation with a Northstar associate, or psychotherapy itself, I will need to arrange to meet with them in their office, in which context the usual HIPPA/legal requirements will apply. I will be given the option of a referral to another qualified psychotherapist if one can be found in my area.

I understand that the Northstar consultant will hold all information we discuss in full confidence. If it is decided that the Northstar consultant needs to share or request information with/from a third party, I will need to provide a written, time-limited consent for this communication. It will include an explanation of the reason and the main content of the information to be discussed.

I agree to hold the Northstar consultant and Northstar Consulting Associates harmless from any legal action of any kind.
